

ATLANTIC MARINE

ATLANTIC MARINE
PLEASURES 
HAPPEN

ATLANTIC MARINE company is located in Augustów in the north-eastern part of Poland,

In that famous in marine business Augustów where the production of motor boats has developed since 70' and now is the leader in the industry.

Our company is engaged in each stage of manufacturing process, starting with a design project of a motor boat and ending at the boat test on the water. All boats are made in manual lamination technology.

Reliability, perfect technology methods and concern of details enable us to provide high - quality motor boats which satisfy individual needs for leisure activity on lakes as also seas, all around the world. From the very beginning we have always focused our attention on making our brand perfect. Our main visionary goals are: precision, reliability, functionality and safety.

ATLANTIC MARINE is an independently existing company that comprising real passion, consequence and hard work. Nowadays, we are proud of many satisfied customers, who come not only from Poland but also many other countries.

We present you four design lines: Sun Cruiser, Day Cruiser, Open and Adventure and each of our boats is tailored to individual customer needs. All of the above models fulfill their demands and expectations.

Each year we are launching a new model, working on its perfection and innovative character so that we gain a significant position and reputation on the market.

New boat models are presented at prestigious Boat Shows and Watersports Exhibitions in Paris, Dusseldorf, La Rochelle, Stockholm and many others.
